PROFESSIONAL EXPERIENCE

AUG 25 - NOW **EDMOND DE ROTHSCHILD AM - Quantitative devlopper** ***PARIS - FRANCE***

Investmet Process Department (work-study program):

- Quant Engineering: Multi-level attribution models for PnL drivers and portfolio simulators for factor exposure analysis
- Software Engineering: Development of a quantitative analytics and portfolio diagnostics platform (React, APIs, CI/CD)
- Sentiment Analysis: Development of performance review agents and attribution (LLM-driven NLP, RAG, Agentic AI)

DEC 24 - JUN 25 **PSL - Mines Paris - *Teaching Assistant* :** ***PARIS - FRANCE***

- Mathematics : Applied Maths for ML, and Linear Algebra
- Computer Sciences : Machine & Deep Learning, Generative Architecture, RAG

JUN 24 - DEC 24 (6 MONTHS) **EDMOND DE ROTHSCHILD - Data Scientist** ***LUXEMBOURG, LUXEMBOURG***

Static Data Department - (internship) :

- Automated investment strategies of Fixed Income, multivariate calculus (Gini index), + **98%** Time Saving
- Development of tools to ensure data integrity, **+30000** securities
- Development of an automated pricing analysis tool
- Pricing & Valuation

EDUCATION

AUG 25 - NOW **Mines Paris – PSL × Albert School** ***PARIS - FRANCE***

Master in Data for Finance – Financial & Applied Mathematics (Work-Study Program) :

- Main courses: AI & Algorithmic trading, Times Series Analysis, Economy, Stochastic Process
- AQTC: Quantitative Strategy Club, member of the quantitative research department

AUG 23 - JUN25 **Mines Paris – PSL × Albert School** ***PARIS - FRANCE***

Bachelor in Data & Business – Valedictorian :

- Main courses : Machine and Deep learning, Analysis, Stochastic Calculus, Probability & Statistics, Linear Algebra, Finance, Economy
- Hard skills : Python, Numpy, Pandas, Scikit-learn, PyTorch, SQL, DBMS, Angular

Ranked 1st of cohort in :

- Applied Maths for ML, Stochastic Calculus, Optimization, Machine & Deep Learning, Generative AI modeling

SEP 21 - JUN23 **UNIVERSITY OF LORRAINE** ***NANCY - FRANCE***

First Years Double Degree Mathematics & Computer Sciences (GPA 3.7/4)

COMPETITIONS

SEP 25 - SEP 25 **Morgan Stanley – Systematic Trading Hackathon (3rd place)** ***PARIS - FRANCE***

An invitation-only cohort of 100 selected students from across Europe | Strategies :

- Directional Momentum Strategy
- Order Book Depth Arbitrage Strategy

APR 25 - APR 25 **IMC – Quantitative Trading Competition (Top 1%)** ***PARIS - FRANCE***

World Wide Trading Competition Prosperity* | (112 / 12,870) | *Strategies :

- Options trading strategy, Implied volatility arbitrage, Delta & Vega Hegding, win rate : **76.03%**
- ETF Pricing Arbitrage, based on the index and its synthetic counterparty, win rate : **74.26%**
- Market divergence, enhanced by an ML model, trained in a real-time rolling window, win rate : **92.25%**

FEB 24 - APR 24 **Quantitative Research Hackathon (1st place)** ***PARIS - FRANCE***

EDMOND DE ROTHSCHILD ASSET MANAGEMENT (presented to partners) :

- Alpha signal generation using Machine Learning, ranked signals using Sharpe Ratio
- Identify and predict variations in Asset Under Management, **85%** Success rate
- Hedging portfolio through Statistical Arbitrage using Pair Trading or Cointegration

PUBLICATION

SEP 23 2025 **Research Note** ***PARIS - FRANCE***

SPECS-Transformer :

- Transformer Architecture for Volatility Forecasting with Signal-Spectrum Dynamics, Published on Zenodo – Bizeul A.[DOI]

EXTRA CURICULAR

LANGUAGES : French (native) | Italian (native) | English (fluent) | German (basis)

SOFT SKILLS : Communication | Teamwork | Autonomous | Seriousness | Problem solving

HOBBIES : Gym (4 years), Biking (5 years) gold medal Great East Criterium 2018 (500+ participants)
